

GARETECH

“Reliability for **Africa’s** Infrastructure”

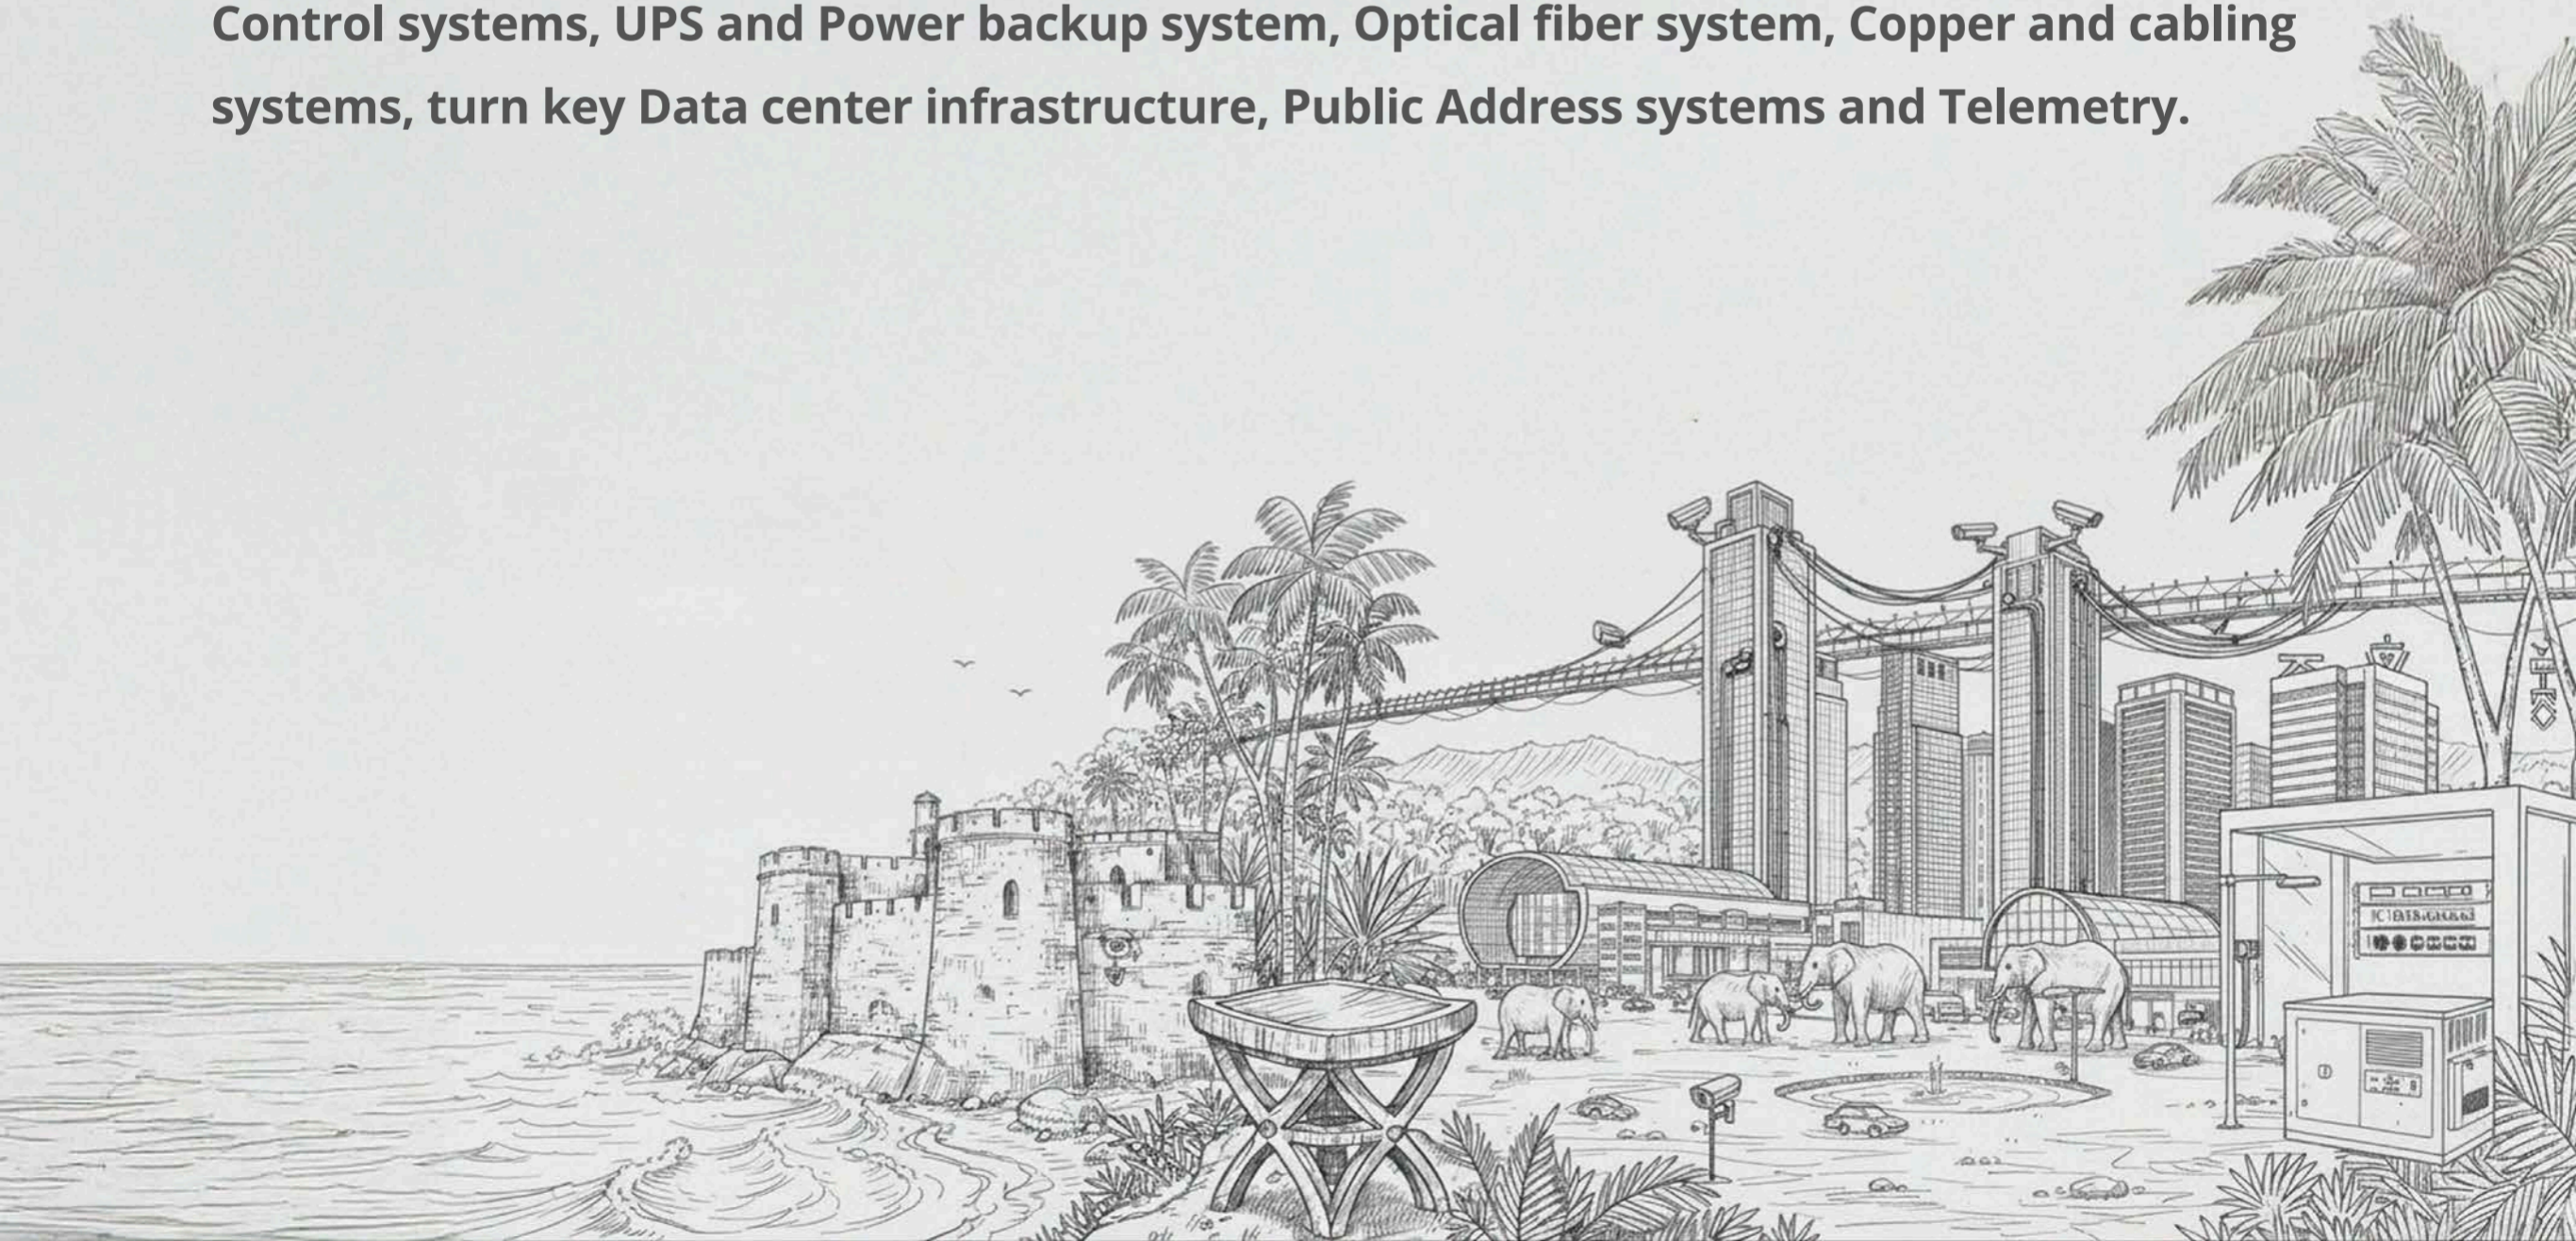

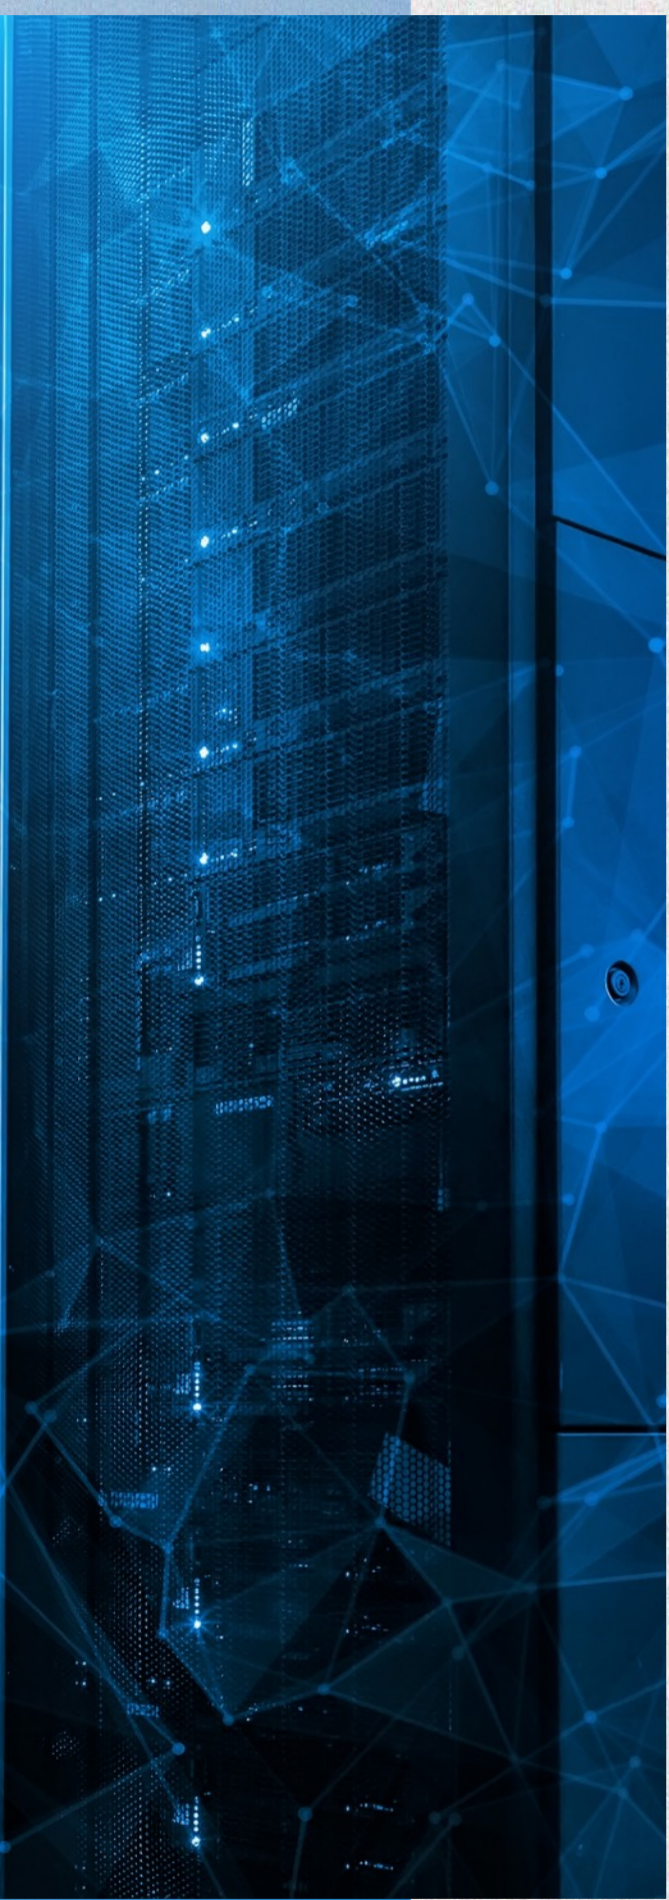

WHO WE ARE?

GARETECH GHANA LTD is a corporate body registered under the companies' code of the Republic of Ghana. Garetech didn't just happen upon the security market, it has been a steadily progressive journey **since 2010**.

Our core business is to provide **high-end innovative turn-key solution** which serves as appropriate responses to the varied challenges faced by individuals and corporate institutions using state-of-the-art technologies and world leading brands.

We offer the best breed of cutting-edge technology, in **Surveillance systems, Access Control systems, UPS and Power backup system, Optical fiber system, Copper and cabling systems, turn key Data center infrastructure, Public Address systems and Telemetry.**

Vision

To be the first choice in the distribution market for our partners in Ghana and the sub regions.

Mission

To protect lives, secure assets, and facilitate seamless connectivity by bringing cutting edge reliable ELV Products and Optical Solutions into the Ghanaian and sub regional markets.

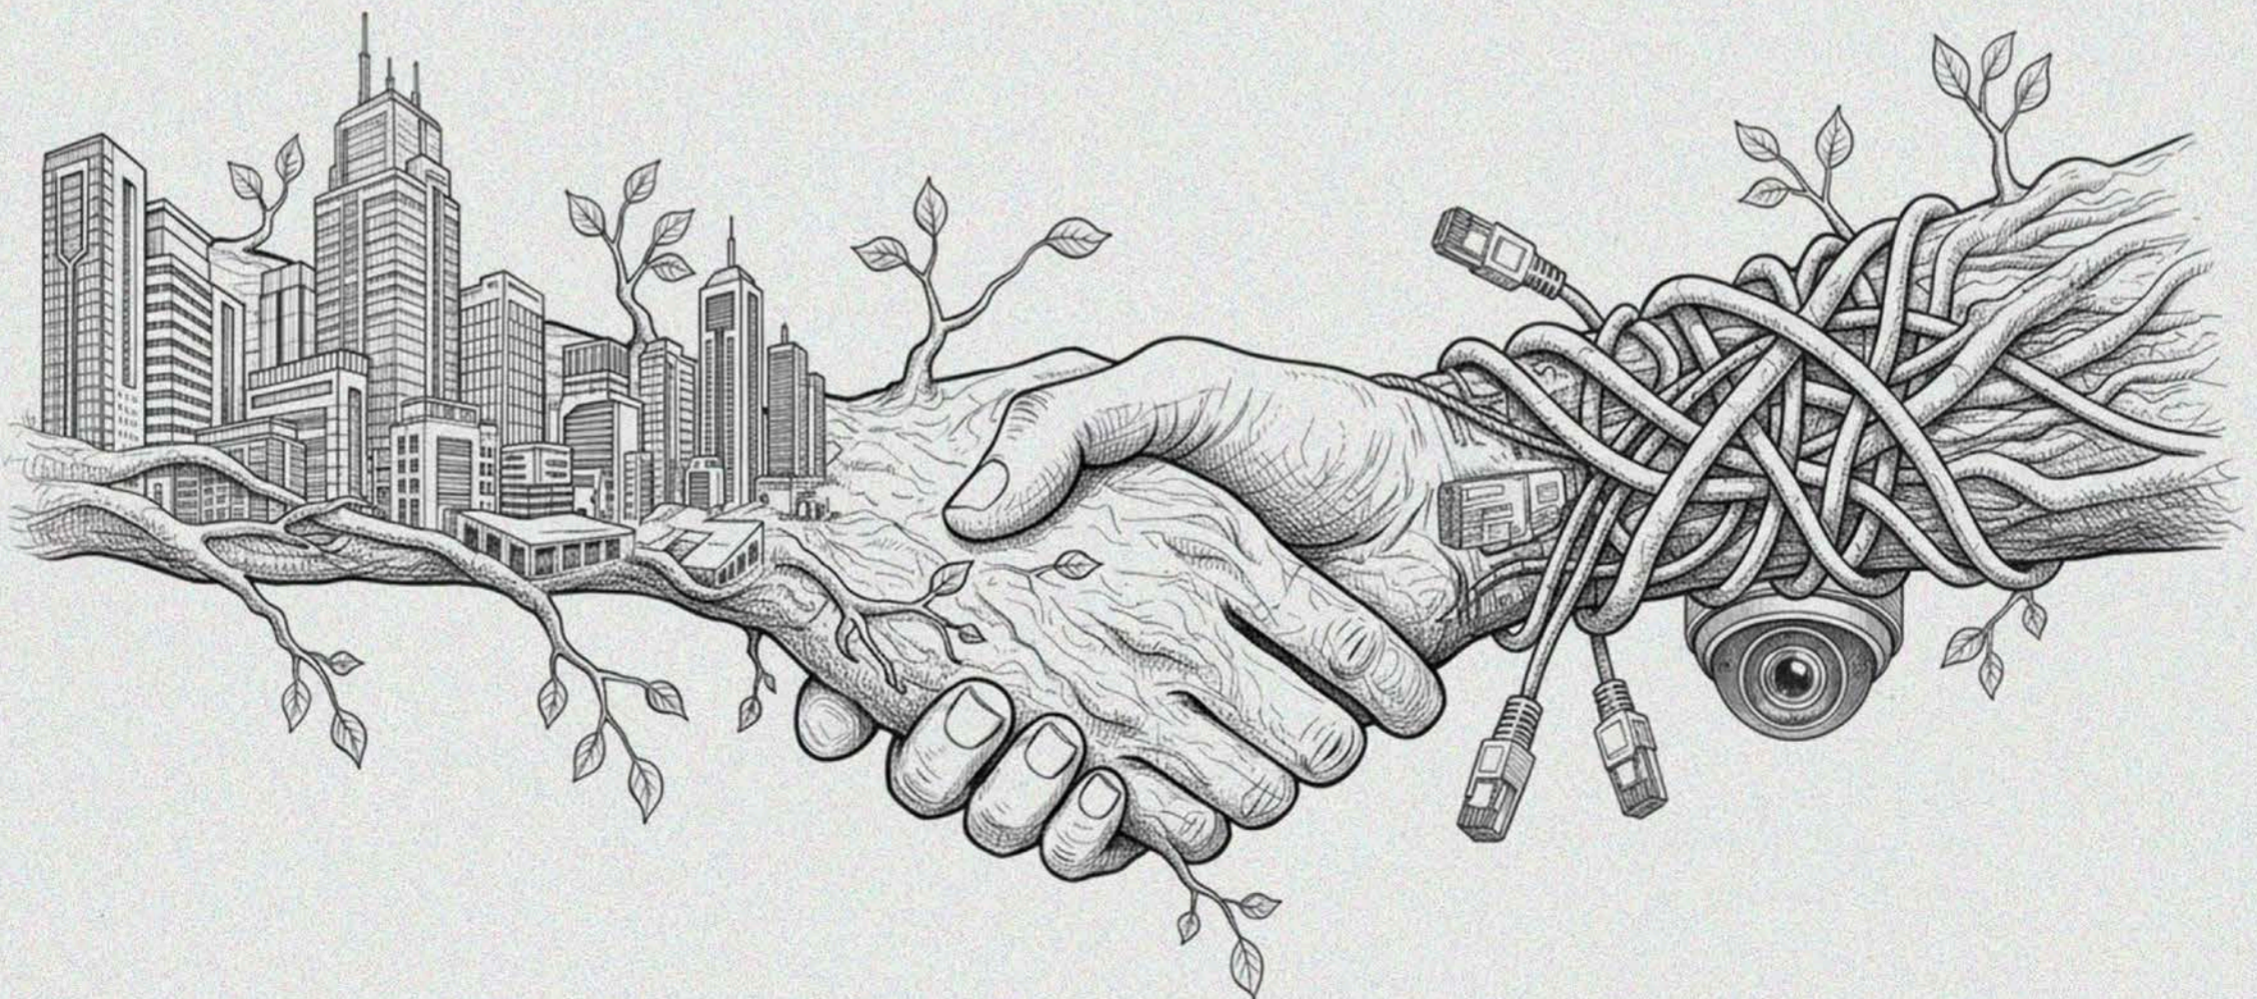

CORE VALUES & ETHICAL PRINCIPLES

Core Values

- Service spirit
- Time consciousness
- Team spirit
- Spirit of progress

Ethical Principles

- Truth
- Respect for people
- Transparency
- Business integrity

OUR PRODUCTS

PUBLIC ADDRESS SYSTEM

4K PTZ camera with 12× optical zoom and auto-tracking, ideal for video conferencing and live streaming in medium-sized meeting rooms.

SURVEILLANCE SYSTEM

High-performance IP dome camera with night vision, smart analytics, and enhanced security features for professional surveillance applications.

ACCESS CONTROL SYSTEM

Advanced facial access control system with high-speed processing, multi-person recognition, and mask detection for secure environments.

COPPER SYSTEM

High-strength fiber cables with up to 144 strands, offering excellent water resistance and reliability for backbone and long-distance networks.

POWER DISTRIBUTION UNIT

Hot-swappable, upgradable PDUs designed to enhance uptime, improve energy efficiency, and reduce operating costs.

SOLAR INVERTER

Single-phase on-grid solar inverter for residential and small commercial photovoltaic power systems.

OUR PRODUCTS

FireNor Cables

Designed to maintain circuit integrity during fire conditions, ensuring power or signal transmission for a defined period.

Fire Alarm System

High-quality systems that accurately detect fire locations and enable preventive actions through configurable cause-and-effect command setups.

Intelligent Solutions

Designed for fast, easy deployment of inter-connect and fiber-channel applications across data centers, telecom rooms, and backbone infrastructures.

Fibre Systems

High-strength fiber cables with up to 144 strands, offering excellent water resistance and reliability for backbone and long-distance networks.

Building & Industrial Cables

Used for transmitting voice and data, and for interconnecting electrical equipment and instruments in process plants.

Cabinets & Accessories

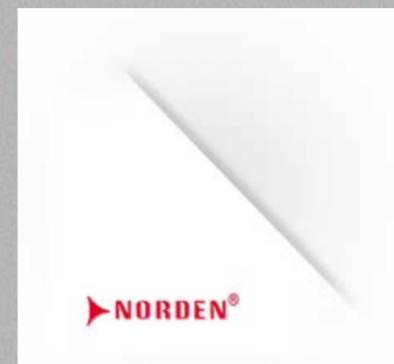

Floor-standing access card cabinets for data centres and communication rooms, compliant with ANSI, IEC, DIN, and ETSI standards.

OUR PRODUCTS

UPS

High-capacity online UPS systems with high efficiency, and scalable parallel operation, ideal for data centre and critical power applications.

Fire Alarm System

Integrated data center solutions for efficient, reliable, and scalable infrastructure.

Garetech offers a comprehensive range of advanced infrastructure solutions powered by **NORDEN**, a **trusted international brand** based in the **UK**. The portfolio includes data center solutions, power and energy systems, structured cabling, security and surveillance, access control, fire safety, and intelligent infrastructure products.

Designed to meet **global standards**, **NORDEN products** deliver high performance, reliability, safety, and scalability for commercial, industrial, and mission-critical environments. Through this partnership, Garetech provides end-to-end solutions that support modern digital, security, and power requirements across diverse sectors.

SURVEILLANCE SYSTEM

Significant improvements in video technology over the past decade have brought **CCTV systems** to the forefront of the security industry. Promising a safe and secure premise with our advanced surveillance systems.

Integrated with **ultramodern technology** to monitor your premises around the clock in all climatic scenarios, CIRCU

POWER SYSTEMS

We supply and install dependable power backup and distribution systems, including **UPS, inverters, and solar solutions.**

Designed for efficiency and reliability, our systems keep businesses running without costly interruptions.

COLLECTIVE & PERSONAL PROTECTIVE EQUIPMENT

At **Garetech Ghana**, we provide quality collective and personal protective equipment to safeguard people at work.

From individual gear to group protection systems, we help organizations **reduce risks, boost productivity, and stay compliant with safety standards.**

ACCESS CONTROL SYSTEMS

We supply and install modern **access control solutions, from biometric scanners to card systems**, that safeguard premises while offering convenience and accountability. Our systems make security seamless and traceable.

VEHICULAR & PEDESTRIAN PATHWAY AUTOMATED SYSTEM

We provide reliable gate automation and boom barrier solutions for **secure, fast, and convenient access control**. From residential gates to high-traffic areas, our systems ensure smooth operation, durability, and easy integration with access technologies.

PERIMETER FENCING & INTRUSION ALARM SYSTEM

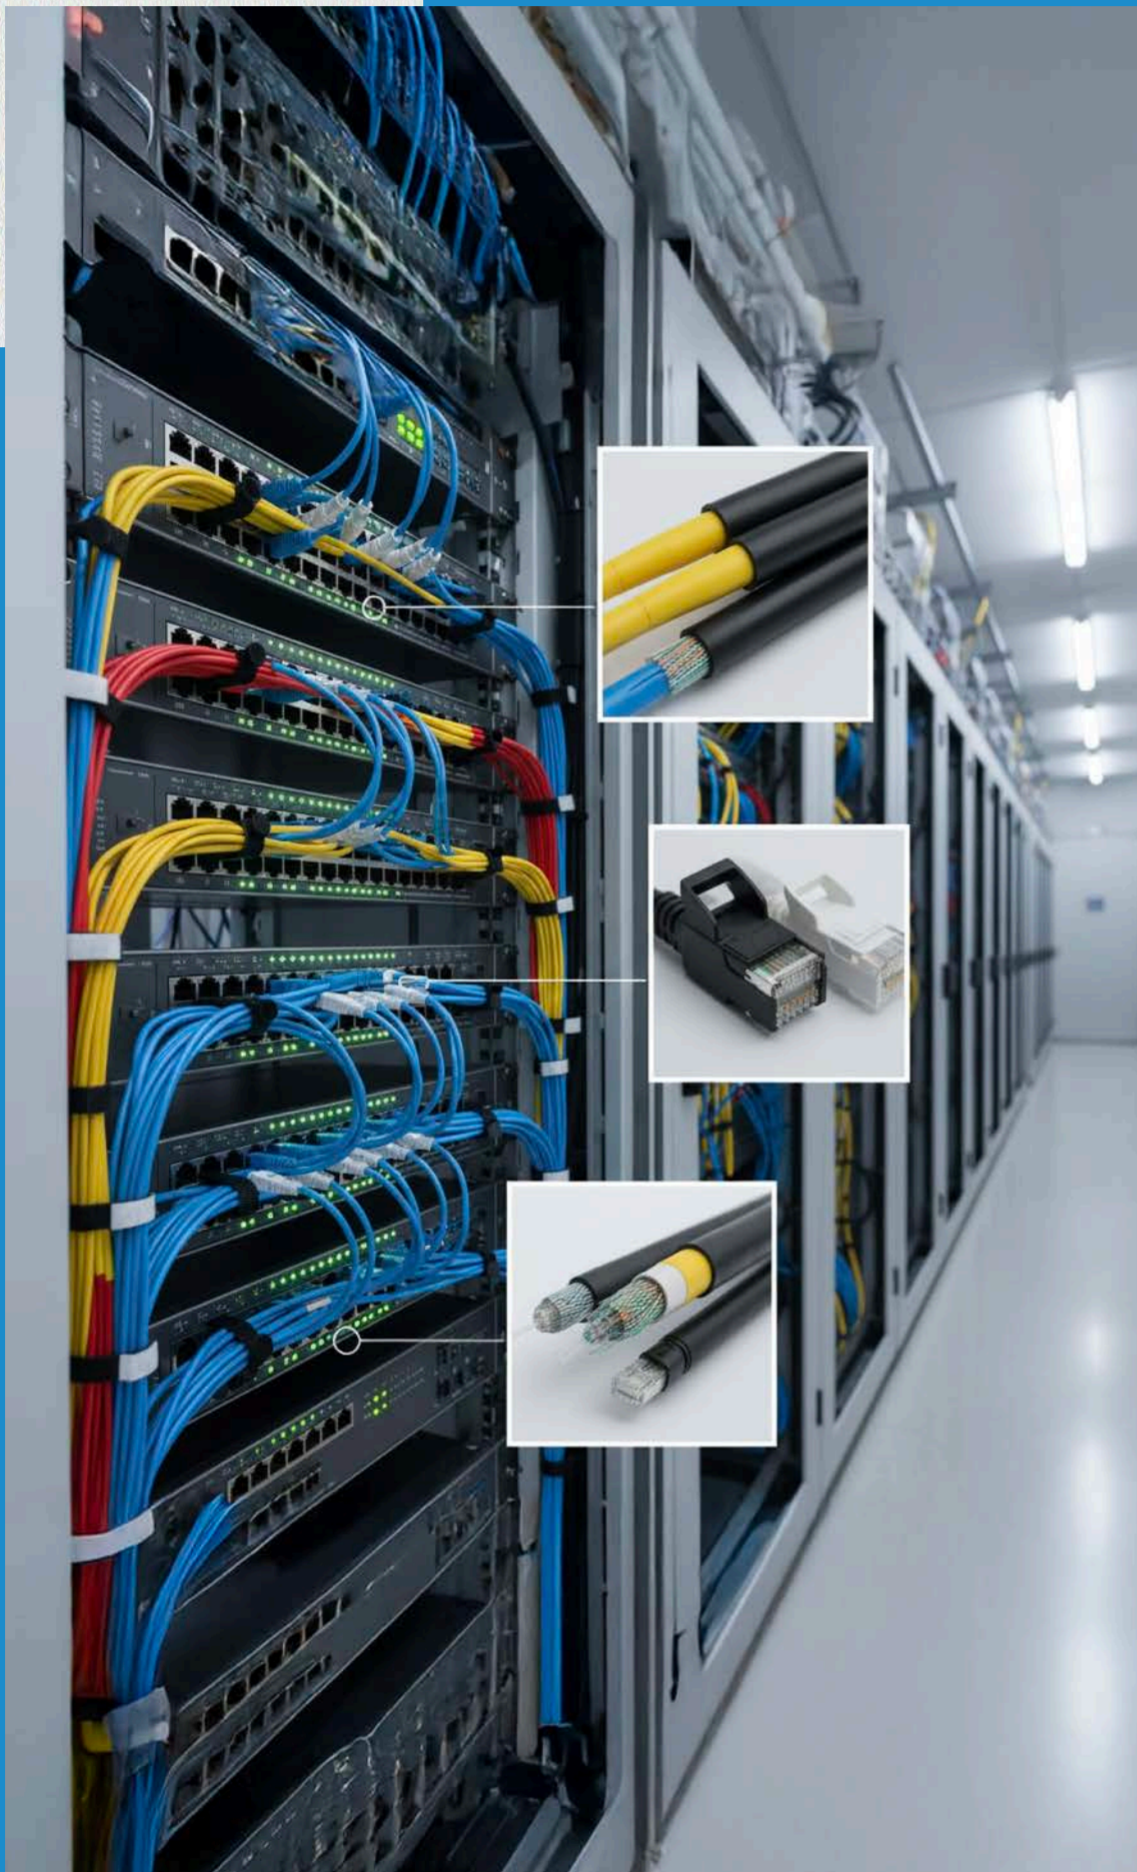

We supply and install durable electric fencing and intrusion detection systems that serve as the first line of defence for residential and industrial properties.

Our perimeter security solutions are designed to **deter, delay, and detect.**

FIRE ALARM SYSTEMS

We sell and install quality fire alarm cables, advanced fire alarm and detection systems, including smoke, heat, and gas sensors.

CABLE SYSTEMS

Garetech supplies and offers structured cabling solutions using **high quality copper and fiber optic systems.**

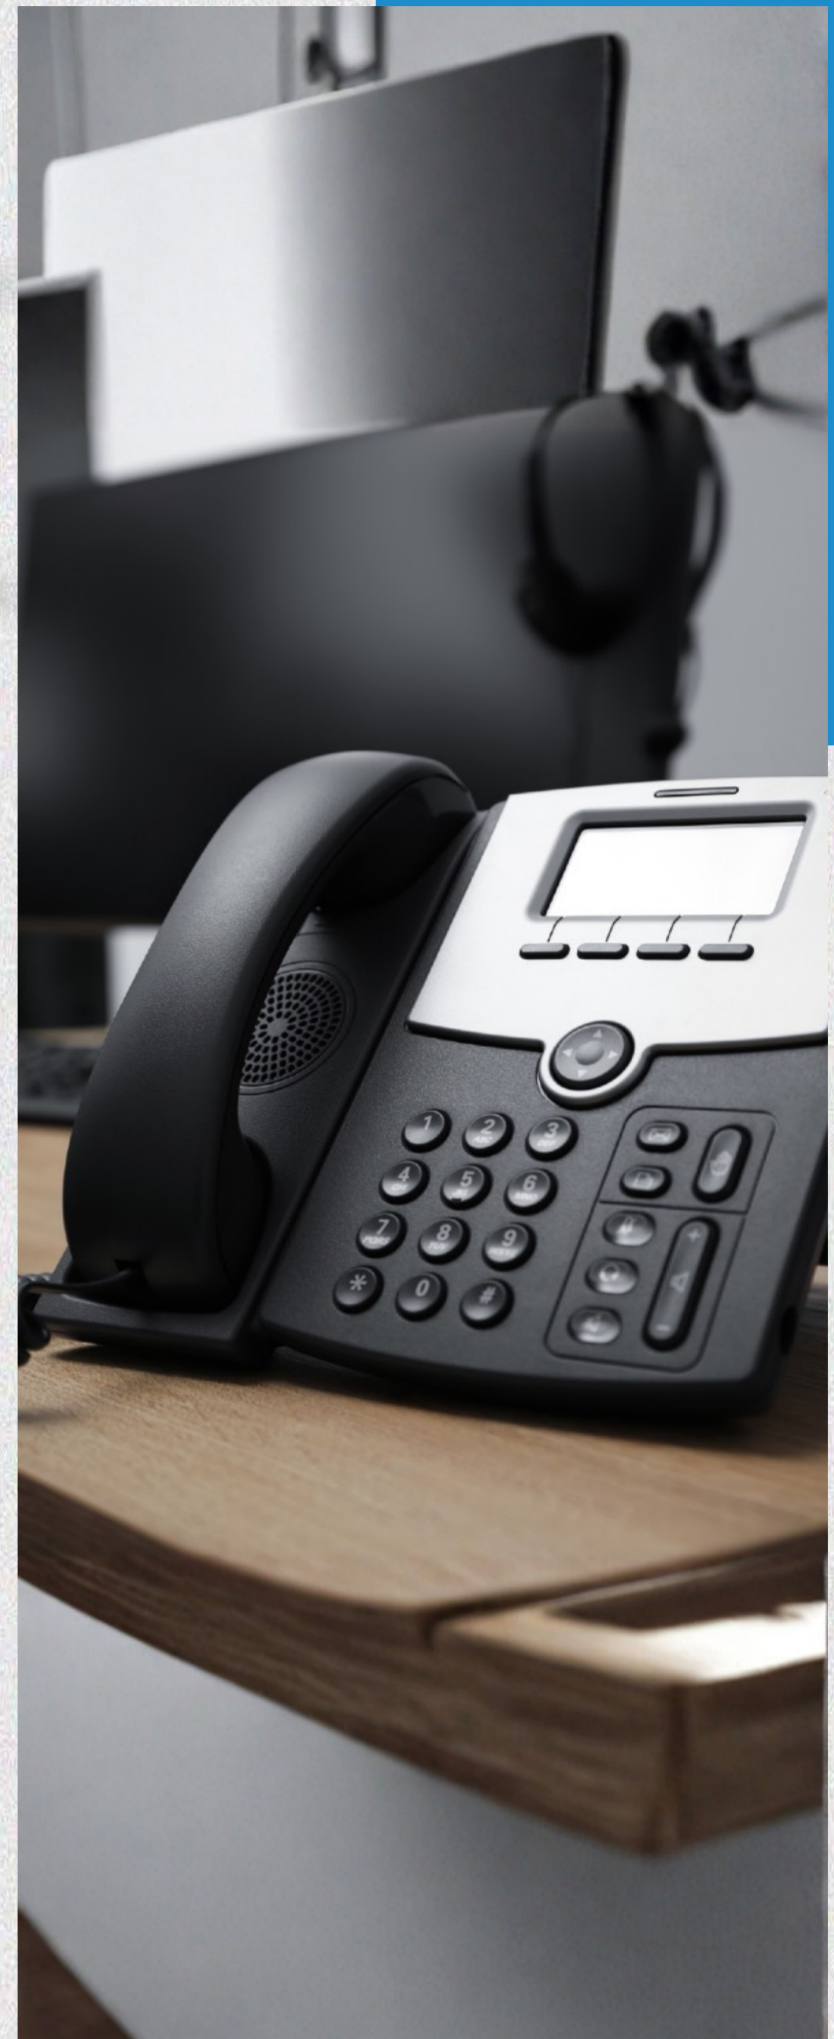

We ensure reliable, high speed connectivity for voice, data, and video applications, tailored for today's demanding networks.

IP PBX SYSTEMS

We **supply and install** modern **IP PBX systems** that simplify communication and reduce costs.

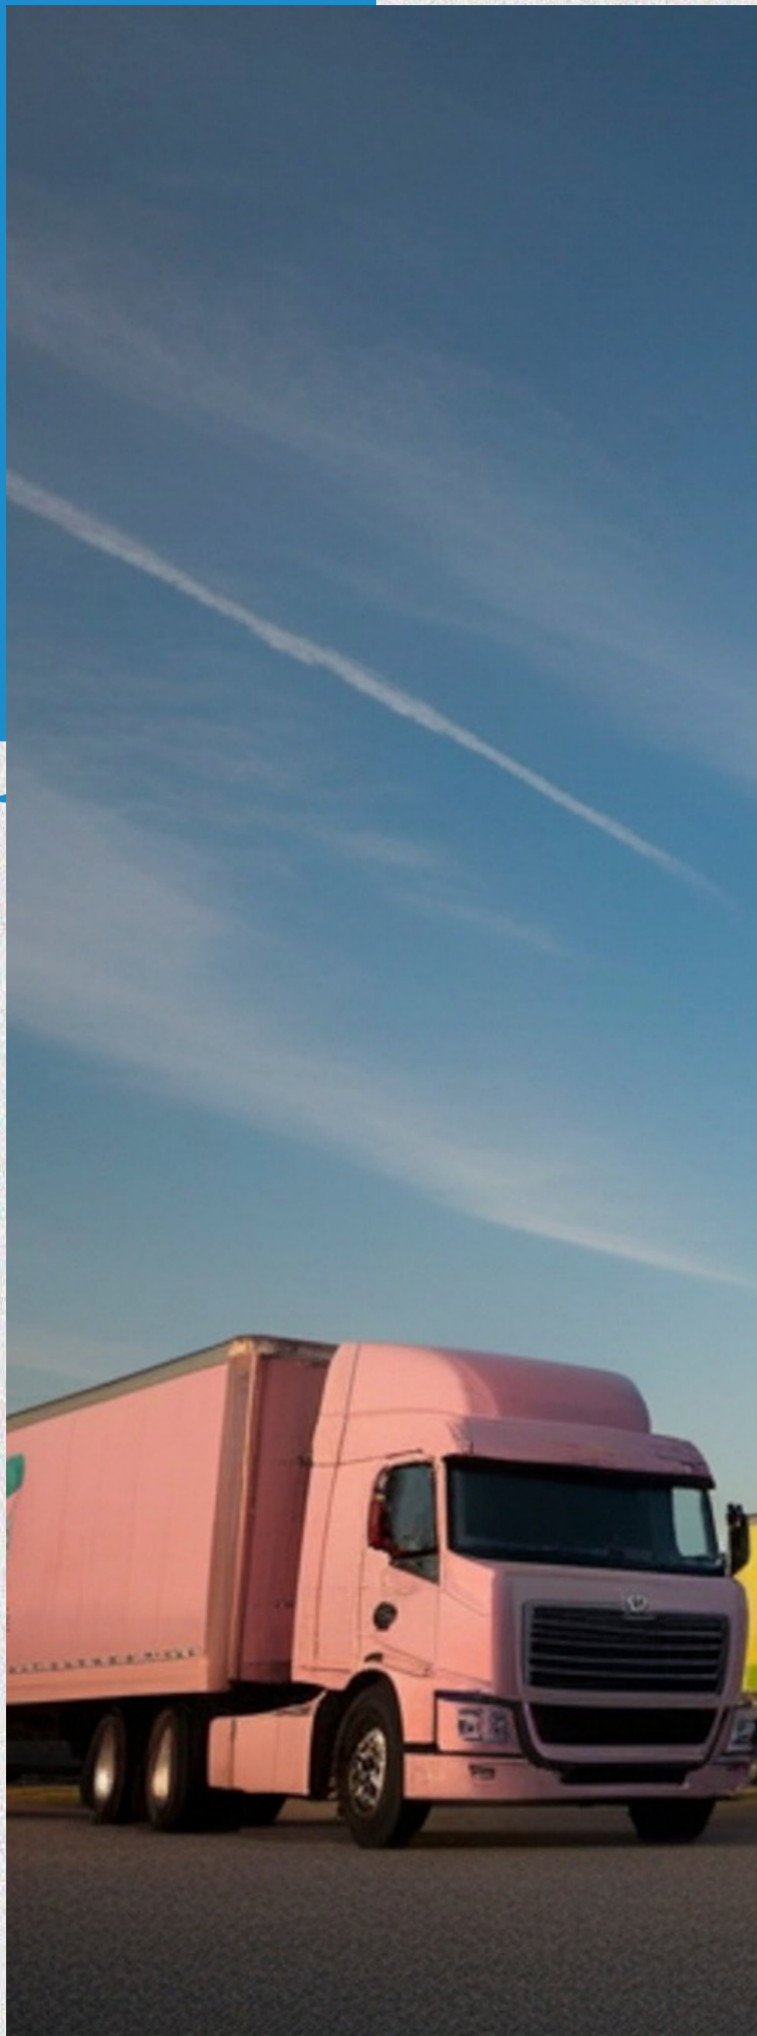

With features like **call routing, conferencing, and mobile extensions**, your team stays connected anytime on a secure, unified platform.

VEHICLE TRACKING & FLEET MANAGEMENT

Where is your car?.. We have the answer

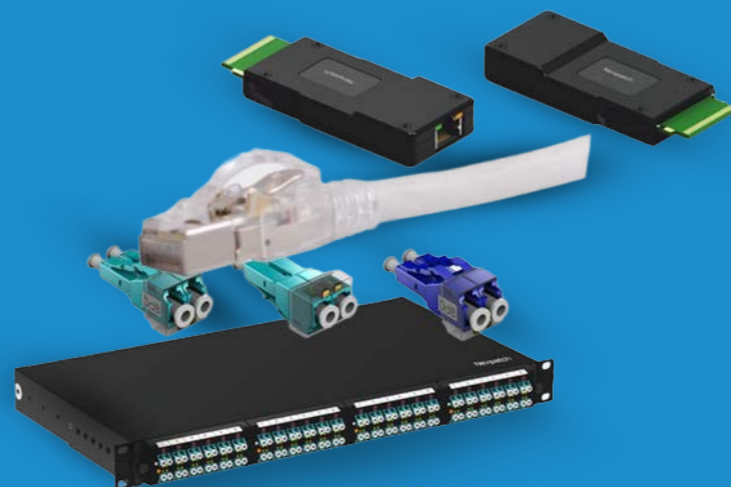

- ⦿ Real Time Tracking
- ⦿ Fuel Monitoring
- ⦿ Engine Block
- ⦿ Location Detection
- ⦿ Geo Fencing
- ⦿ Alerts and SMS

I.T AND NETWORKING

We provide end to end **IT and networking solutions** to keep businesses running smoothly.

From **structured cabling, servers, and systems integration to cybersecurity and ongoing support**, our services ensure your **operations** remain **connected, secure, and efficient.**

PUBLIC ADDRESS SYSTEMS

We supply and install state of the art **public address and voice alarm systems** that deliver **clear, reliable communication** across **schools, offices, factories, and public spaces.**

Our solutions ensure vital messages are heard and acted upon.

Gareth Akuamoah-Boateng
CEO - GARETECH

As the **Chief Executive Officer** of **Garetech Ghana Limited**, I am proud to lead a company built on innovation, integrity, and a commitment to excellence. Our mission is simple yet powerful: to deliver technology solutions that safeguard businesses, enhance efficiency, and prepare our clients for the future. As the world of commerce becomes more competitive, businesses will seek out opportunities. As social environments become more volatile, the need for security integration is crucial for protecting people, assets and infrastructure. More buildings, more people, varying cultures, all increase the need for a comprehensive security, safety and connectivity solutions.

At Garetech, **we specialize in delivering reliable, scalable and tailored-made security and connectivity-based applications that address the unique needs** of today's increasingly complex threat landscape. Choose us on your next project for our prompt service delivery culture and our unique product lifespan support.

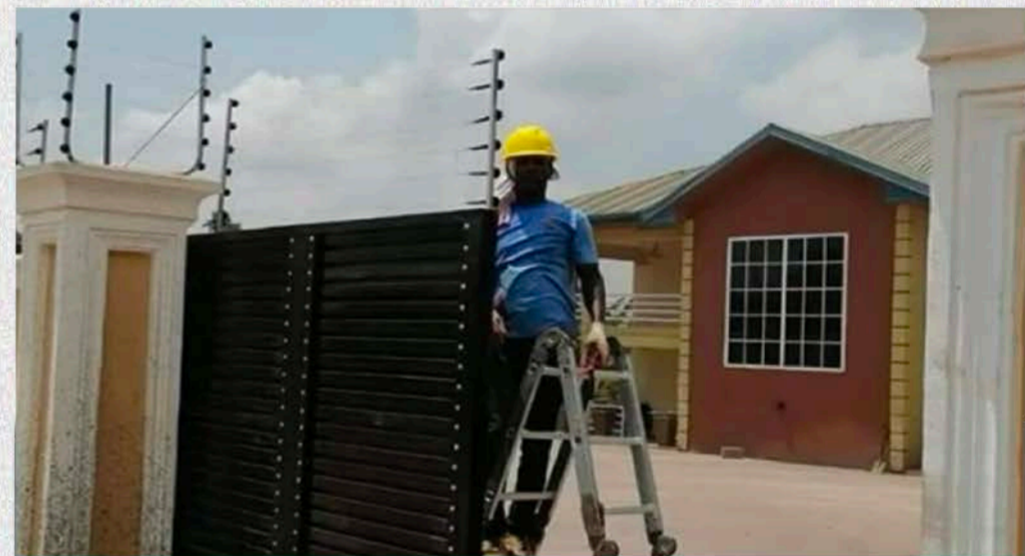

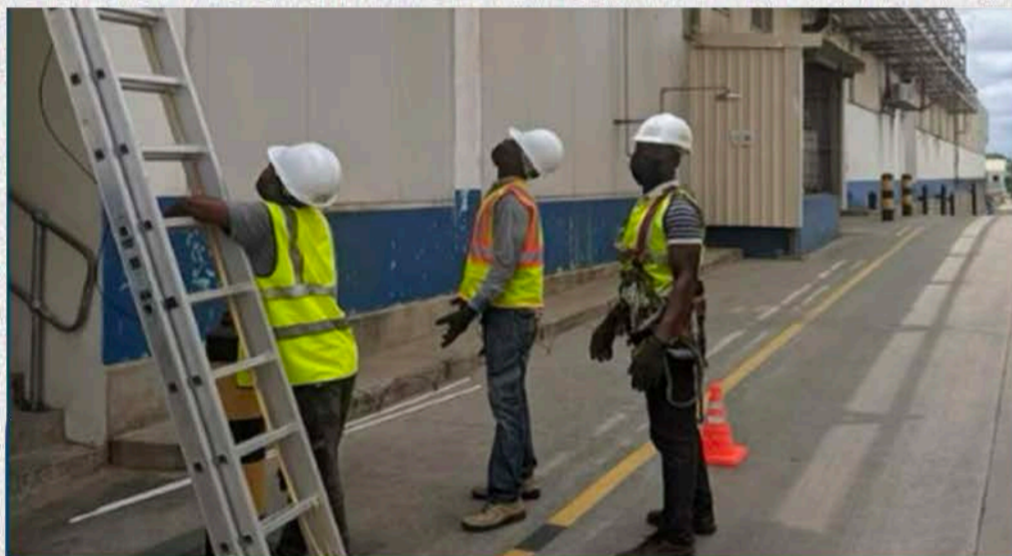

OUR TEAM

In line with our commitment to excellence and client satisfaction, **GARETECH GHANA LTD.** is built on a foundation of dedicated, high-caliber professionals. Our multi-disciplinary, results-driven team includes certified electrical engineers, pre-sales engineers, IT networking specialists, optical fiber technicians, and safety officers.

Together, we deliver innovative, reliable, and effective solutions to every challenge within our operational scope.

OUR GALLERY

WHY CHOOSE US

Expertise: Our team of seasoned security professionals brings extensive experience in designing, installing, and maintaining advanced security systems.

Customized Solutions: We follow a client-centric approach, working closely with you to understand your unique security needs and deliver tailored solutions that fit your environment.

State-of-the-Art Technology: We utilize the latest innovations in security, including AI-powered systems, to provide proactive threat detection and prevention.

Proactive Maintenance: Our dedicated support team ensures your system runs at peak performance, reducing downtime and maximizing protection.

Compliance & Regulatory Expertise: We stay fully updated on evolving security regulations, ensuring all our solutions meet or exceed the required industry standards.
